CARBON TENNIS CLUB BRINGS THE SEASON TO CLOSE

The Carbon Lawn Tennis Club brought the 1929 season to a close on the 20th of October with the final of the Men's Doubles Competition. This was won by W. Poxon and C. Poxon, who defeated C.H. Nash and H. Edwards. The following are the results and scores in each round of the tournament.

First Round—C. Poxon and W. Poxon defeated G. Peters and J. Gilbert, 6-5, 6-3. H. Longstaff and W. Peters defeated W. A. Braisher and P. Wells, 6-1, 6-1. The following drew byes, H. Willson and G. Ramsay; W. A. Braisher Jr. and N. Nash; H. Brown and J. Fairbairn; C. H. Nash and H. Edwards; W. Edwards and M. Wiertz; J. Taylor and T. B. Laing.

Quarter Finals—C. Poxon and W. Poxon defeated H. Longstaff and W. Peters, 6-5, 2-6, 6-0. J. Taylor and T. B. Laing defeated W. Edwards and M. Wiertz, 6-1, 6-4. C. H. Nash and H. Edwards defeated H. Brown and J. Fairbairn, 6-1, 6-4. H. Willson and G. Ramsay won from W. A. Braisher Jr. and N. Nash by default.

Semi-Finals—C. Poxon and W. Poxon defeated J. Taylor and T. B. Laing, 6-5, 4-6, 6-3. C. H. Nash and H. Edwards defeated H. Willson and G. Ramsay, 6-3, 6-5.

Final—C. Poxon and W. Poxon defeated C. H. Nash and H. Edwards, 6-1, 2-6, 6-2.

SKATING RINK BEING LEVELLED

Work has commenced on the leveling of the ground at the skating rink and it is expected that this undertaking will soon be completed and the ground ready for making ice when the winter sets in.

The well at the rink, which was completed some time ago, proved satisfactory as far as the water was concerned, although some difficulty was encountered with the quick sand. However, it is expected that with a

Weddings

MEUBOUER-BERTSCH

A quiet wedding was solemnized at Trochu last week when Lydia Bertsch of Carbon and Rudolph Meubouer of Hanna were united in marriage on Thursday, October 17th. The bride looked charming in a flesh georgette gown with rose lace and she carried a bouquet of roses and carnations. She was attended by Miss Ida Meubouer. The groom was supported by Mr. Edmund Gall. After the ceremony the happy young couple left for a short honeymoon and upon returning they will reside in Hanna.

MANSLEY-RETCLIFFE

A quiet but pretty wedding was solemnized in Calgary on Saturday, October 19th, when Eliza Retcliffe and John Mansley were united in marriage. The young couple are both Carbonites and they will make their home here. Mr. and Mrs. Mansley returned on Sunday and on Monday night a big dance was held in their honor at the Peerless Mine.

CHICKEN SUPPER HELD TUESDAY

The chicken supper which was held in the Farmers Exchange Hall on Tuesday night of this week was well attended, most of the country people coming into town for the occasion. Supper was served commencing at 6 p.m. and following this a short program took place. Among the numbers were: Piano duet by Mrs. McKibbin and Miss Watkins; Song by Mrs. H. A. Evans; Recitation, Joyce Laing; Song, by Mrs. Torrance; and addresses by the Rt. Rev. L. Ralph Sherman, the Rev. J. G. Adam, Cannon Gale and by the Rev. Scallion of Drumheller. W. A. Braisher acted as chairman. The proceeds of this supper and entertainment will go towards the new church which is being erected in Carbon.

and point that this will be overcome and the water situation will be solved. This work was undertaken by the Village of Carbon and is well worthy of recommendation.

LITTLE ITEMS OF LOCAL INTEREST

Miss Annabelle Ramsay of Calgary spent the week end here with her parents, Mr. and Mrs. T. J. Ramsay.

Mrs. J. Verhaust and children of Acme, arrived on Monday and are spending a few days visiting at the home of Mr. and Mrs. J. Rochester.

A new marceller has arrived at the new Carbon Barber Shop and Beauty Parlor. She is thoroughly experienced and thoroughly capable of doing all work in her line.

Miss Vera Poxon was a visitor to the City on Monday of this week.

Mr. and Mrs. G. Regan of Calgary spent the week end visiting at the home of Mr. and Mrs. T. J. Ramsay. They returned on Sunday.

Miss Helen Smith was a Calgary visitor on Tuesday, returning the same day.

The fine weather is still holding out in Alberta and it looks like another late fall.

FOR SALE—A-1 Bronze Gobbler. Also a number of 6 weeks old pigs.—Apply to H. Coates, phone 308, Carbon.

The Ladies Aid of the Carbon United Church held a very successful concert in the Elks Hall on Wednesday evening last and a large crowd was present. A fine program consisting of readings, songs, dialogues, etc., was presented and following this the ladies served refreshments.

In reporting the accident at the Black Diamond Mine last week we stated that about three tons of rock had fallen on William Lakatos. We wish to correct this statement. When the rock was measured and the weight calculated it was found that the approximate weight of the rock was 2200 pounds.

MORE WILD FOUL IN ALBERTA THAN ANY OTHER PROVINCE

The game resources of Alberta are the best of any province in the Dominion, according to Jack Miner, famed as a naturalist and keeper of the large bird sanctuary at Kingsville, who spoke in Calgary, Lethbridge and Drumheller last week.

Mr. Miner stated that he had seen more ducks and water fowl during his visits to this province than in any other part of the Dominion.

The need of sanctuaries for bird life was stressed by the naturalist, for, in spite of the amount of game birds now in the province, there may come a day when they would not be so plentiful unless protected, and in doing this he advocated that sanctuaries be established all along the line of migratory birds, which could thus be distributed evenly all over the country.

He had proved, he stated, that by kindness and feeding the birds, the route of migratory birds could be changed. To his own sanctuary at Kingsville he had drawn more than half of the waterfowl from all over the United States. He explained the work he was doing, chief of which is the banding of migratory birds, by which he has been able to trace the exact path and other interesting facts regarding the flight of the birds. Some of the birds which had been tagged on his place had been traced as far north as the Arctic circle, and south to southern climates in the palm trees.

A LIFETIME OF THRILLS CROWDED INTO ONE WEEK

A lifetime of thrills crowded into one hectic week!

Careening through the air in a breeches buoy, a sinking ship at one end of the line and her deadliest rival on the other! A fight with a jewel thief on his yacht at sea, a mad escapade in a speeding automobile, a clash with a super-sensitive Rajah at a garden party and a love scene on the Statue of Liberty's eye-lashes! These are just a few of the things

School Fair Items

The following are the school Fair awards for Carbon and district:

Educational Diploma—Gamble school

Agricultural Diploma—Gamble school

Book Prize, Joyce Chapman, Beveridge Lake school.

Scholarships and Alternatives—

GIRLS

1. Betty Johnson, Carbon Sr., 76 pts.
2. Myrtle Livingstone, Carbon school, 72 points.
3. Vera Atkinson, Carbon High, 69 points.

BOYS

1. Herbert Congo, Gamble, 48 points.
2. Willie Gibson, Gamble, 35 points.
3. Billy Peters, Carbon Sr., 31 pts.

CARBON OLD TIMERS TO HOLD ANNUAL CELEBRATION NOV. 13

The Carbon Old Timers Association are holding their sixth Annual Celebration in the Farmers' Exchange hall on Wednesday, November 13th. The reason for holding the celebration so early in the season is to permit more members to turn out when the weather is warmer and many who are in distant localities will be able to motor in for the occasion. An old timer is considered anyone who has been in the Carbon district prior to January 1, 1908. Children of Old Timers are eligible if they were born before this date. The entertainment on this occasion will be in the form of a whist drive and dancing.

that Bebe Daniels went through during the making of her latest picture, "Hot News," which comes to the Carbon Theatre on Friday and Saturday of this week. She plays the part of a newsreel camera girl, whose quest for news of the most torrid variety leads her into all sorts of dangers and com-

ROY JAMES NARROWLY ESCAPES SERIOUS INJURY

What might have resulted in a fatal accident occurred on Friday last about five o'clock, when Roy James, son of Mr. and Mrs. J. E. James, was knocked down on front street by a passing car. The accident occurred in front of the S. E. Peters & Son store where Roy was standing beside a parked car. He attempted to cross the street and in stepping from behind the parked vehicle he came in contact with the car driven by Otto Norman. The lad was knocked down and the wheel of the car passed over his head. Roy was immediately taken to Dr. McFarlane's residence where he received a few stitches in his chin and other medical aid was given to his bruised head.

The car driven by Norman was a Ford.

This accident does not appear to be the fault of the driver, but in any case it will be a lesson to all motorists and persons, especially children, who are continually playing on the roads. Carbon's front street is busy at times and it is a wonder that more accidents of the above nature have not occurred, and with more fatal results.

While thrilling to a high degree, the humorous side of the situation is never for a moment forgotten.

"Your daughter is naturally graceful."

"Yes. Whenever she swats a fly you would think she imagined she was Helen Wills."

A motorist is a man who thinks his make of automobile is the best in the world, but is saving up his money to buy another kind next year.

The Average Man and the League

With the closing of the tenth assembly of the League of Nations it is well for those, both in the cities and towns, and the country districts, to get some idea of what the League means to the average citizen.

Immersed in our own affairs and the daily complexities and worries of life, it is hard for the man in the street, or the man in the field to realize what the League means to him. All of us are somewhat hazy about world politics, especially in these days when indifferent crops and business complications make us apt to concentrate on our own immediate affairs. Occasionally we hear high sounding phrases glorifying the accomplishments of the League; at other times the sneers of cynics who advise us to go about our business and take no stock in an agency which can never have any beneficial or practical effect on our lives.

Yet the League and what is done at Geneva are of tremendous concern to all of us. A well known Canadian writer has said: "The League of Nations is not the infallible and mighty thing described in superfluous rhetoric by certain orators, the nations do not tremble with fear at its frown, it has disappointed romantic visionaries, and it does a number of things to which little attention is paid. Yet despite all of this, and notwithstanding some failures, the League has more than justified itself. In ten years it has prevented ten wars and become an effective central agency for the consideration of crises and the employment of commonsense arbitration in great and small disputes."

Some people have thought that the League ought to be able to almost automatically put an end to ill-feeling between two South American republics, or prevent Arabs slaughtering Jews in Palestine, in the twinkling of an eye. Such action is almost beyond the power of any agency devised by man. Hate, born of jealousy, avarice, racial and religious antipathy may blaze into wholesale murder at any moment and justice and commonsense are powerless for the moment. But such an agency as the League has time and again proved that once the first outburst is spent, it can prevent the trouble spreading and restore peace and sanity by conciliation, and if necessary, the invoking of economic and armed pressure.

The League of Nations, in short, has won the respect of the world, not only as an agency that can prevent war, but as a necessity that has grown up with the complexity and interdependence of modern international life.

Canada, like the other nations, and the citizens of Canada, in town and country, must stand foursquare behind its efforts if our children and our children's children are to be delivered from those horrors which took the flower of our youth, and made the world a nightmare of strife.

Canada has, up to the present, taken a worthy place in the councils of the League. Other nations have recognized the value of the Canadian contribution, realizing that to a greater extent, perhaps, than most Old World nations, Canada's position is an unselfish one, the outcome of a sincere desire to promote world peace in the interests of all, and not chiefly for the purpose of promoting Canadian security or advancing purely Canadian interests.

Canada's future contribution can only be measured by the degree of interest manifested by its citizenship and the support extended by the Canadian people to their Government in all efforts put forth to strengthen the League and enlarge the scope of its humanitarian and peace promoting programmes.

Deposits Are Important

British and American Capital Interested in Manitoba Tin

"British and American capital is definitely interested in the possibilities of tin in Manitoba," according to the Free Press Evening Bulletin. "Tin ore has been found in many places, and work now in progress in two or three camps will go far towards proving whether or not it is to be found in commercial quantities, but whatever the outcome, both British and American capitalists intend to be strongly represented, because of the supreme importance of such deposits."

Napoleon Bonaparte was about five feet three inches in height.

High Quality Seed

Inspection Shows Ample Supply To Meet Requirements

G. M. Stewart, head of the Dominion seed branch at Calgary, states that the 1929 inspection of standing fields of grain for members of the Canadian Seed Growers' Association, shows it can be reasonably expected that there will be an ample supply of seed of high quality to meet requirements for next year. Yields seem to be somewhat higher than had been generally reported. There were nine inspectors out and 590 fields viewed, including many in the Peace River country.

The honest grafter confines his operations to trees and shrubs.

When Food Sours

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been over-stimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient, and

harmless. It has remained the standard with physicians in the 50 years since its invention.

It is the quick method. Results come almost instantly. It is the approved method. You will never use another when you know.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Alberta As Oil Producer

Production Now Greater Than That Of Montana, New Mexico and Colorado

Alberta is now producing more oil than the states of Colorado, New Mexico and Montana combined, according to a compilation made by F. J. S. Sur, Calgary geologist. He said, "It may be interesting to the oil fraternity of Canada to know that although Alberta is a body in the ranks of the oil producing regions, it is producing now from its Turner Valley field more oil in barrels than the combined output of Montana, New Mexico and Colorado; and when the figures are computed into dollars the value of Alberta's production is seen to be more than twice that of the three states in question."

The Industrial West

Growing Importance Of Manufacture Is Shown By Recent Figures

"Western Canada is no longer merely a wheat and cattle country," says the Winnipeg Board of Trade News Bulletin. "While it is the greatest factor in the world's wheat market, the importance of its manufactures is also steadily increasing. A recent return shows that there are in the three provinces of Manitoba, Saskatchewan and Alberta, 2,358 manufacturing concerns with a capital investment of over \$270,000,000. Manitoba leads with 859 industrial establishments. Alberta is second, with 776, and Saskatchewan third with 721."

NO MEDICINE LIKE BABY'S OWN TABLETS

Once a Mother Has Used Them She Will Use Nothing Else

To once use Baby's Own Tablets is to use them continually—that is as long as there are young children in the home. That is the testimony given us by mothers from all parts of Canada. They all say that they know of nothing to equal the Tablets, that they find them safe and efficient and at the same time pleasant to take.

Mrs. John Hollinworth, Maidstone, Ont., writes:—"I have three children, the eldest fourteen and the youngest nine months old. I have always used Baby's Own Tablets for them and have found no other medicine to equal the Tablets as a relief for the many ailments of childhood."

Baby's Own Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach. They drive out constipation and indigestion, break up colds and simple fevers and make the cutting of teeth easy. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Canadian Wheat For India

A shipment of Canadian wheat consigned from Montreal to India is believed to establish a new record in Canadian wheat exports. Conditions in India called for outside purchases and Canada, as the foremost wheat exporting country in the world, received the order.

Health cannot be looked for in the child that is subject to worms, because worms destroy health by creating internal disturbances that retard development and cause serious weakness. Miller's Worm Powders expel worms and are so beneficial in their action that the systems of the little sufferers are restored to healthfulness, all the discomforts and dangers of worm infection are removed, and satisfactory growth is assured.

Receives New Appointment

Dr. Seymour Hadwen, research of animal diseases at the University of Saskatchewan, has been appointed director of veterinary science for the Ontario Research Foundation.

Relieves Asthma At Little Expense. Thousands of dollars have been vainly spent upon remedies for asthma and seldom, if ever, with any relief. Dr. J. D. Kellogg's Asthma Remedy, despite its assurance of benefit, costs so little that it is within reach of all. It is the national remedy for asthma, far removed from the class of doubtful and experimental preparations. Your dealer can supply it.

William Baker, mail carrier at Forest, Ohio, on special occasions, wears his wedding shoes. The shoes are 44 years old.

For Sprains—Use Minard's Liniment.

W. N. U. 1808

England Sends Trees To China

To Be Planted Around Mausoleum Of Sun Yat-Sen

Representative trees, an oak sapling and a young birch tree are to be sent from Kew Gardens, London, England, to be planted in the grounds surrounding the mausoleum of the Chinese statesman, Sun Yat-sen at Nanking. Reports from the East say that that when the mausoleum of the first Chinese president and its surroundings are completed, they will form one of the world's most beautiful spectacles.

The call of the open road: "Drive over to one side while I give you a ticket."

The earth is believed to be solid at least half way to the center.

A Pertinent Question

Canada last year produced 2,414,307 tons of newsprint, valued at \$144,146,632. Pulp and paper is now the Dominion's chief manufacturing industry. But what are Canada and the United States doing to anticipate forest conditions 20 years hence?

Dyeing this way makes faded Dresses NEW

DIAMOND DYES are the finest dyes you can buy. They are made to give you real service. They contain the very highest quality anilines that can be produced. It's the quality of the anilines in Diamond Dyes that give such soft, bright, new-looking colors; that make them go on so evenly—without spotting or streaking; that enable them to keep their depth and brilliance through wear and washings. Next time you have dyeing to do, try Diamond Dyes. See how easy and simple it is to use them. Then compare results. You will surely agree Diamond Dyes are better dyes. The white package of Diamond Dyes

is the highest quality dye, prepared for general use. It will dye or tinge silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye, for silk and wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. When you buy—remember this. The blue package dyes silk or wool only. The white package will dye every kind of goods, including silk and wool. Your dealer has both packages.

Diamond Dyes

Sun Proof

EASY TO USE—BETTER RESULTS

Diamond Dyes contain the highest quality anilines money can buy. And it is the anilines that count. They are the life of their rich colors; brilliance and permanence.

Suggestions

Make Your Farm More Comfortable, More Livable and More Profitable with These Simple Spare-time Improvements

If you have any time on your hands here are six suggestions which will make an amazing difference in the attractiveness and efficiency of your farm.

First—Buy a supply of Gyproc Fireproof Wallboard. Then erect Gyproc partitions in your attic, changing the waste space into an additional room or two. Imagine how much more comfortable the family will be with the attic converted into a clean, inviting third story.

Second—Renovate the lower rooms by nailing Gyproc right over cracked and faded walls. You can decorate the flat, smooth Gyproc surfaces with Alabastine, paint or any other finish. And what a difference it will make to your home.

CANADA GYPSUM AND ALABASTINE, LIMITED

Head Office: Paris, Canada

Branches: Montreal, Toronto, Windsor, Winnipeg, Vancouver

GYPROC
Fireproof Wallboard

Fourth—Gyproc your poultry house. Your flock will have better health, and year-long protection from fire, cold, heat and vermin.

Fifth—Line your grain bins, barns, stables and other buildings with Gyproc. By doing so you will make them more valuable, fire-safe, cold resistant and 50 per cent. more healthful for your stock to live in.

Sixth—Look about for cracked, warped or rotted walls, partitions and ceilings and repair with Gyproc. Such repairs are quick and inexpensive to make because Gyproc saws, nails and cuts so easily—saving time and labor.

ALMOST ALL OF THIS YEAR'S CROP IS OF HIGH GRADE

Saskatoon, Sask.—This year more than 90 per cent. of the wheat falls within the statutory grades. Protein content averages 14 per cent., and in some cases has run as high as 19 per cent. Each year since the Canada Grain Act was passed "commercial grades" have been fixed for grain in some way damaged. This year no such grades could be fixed, because there was too little of such grain to make a fair sample. This year is the first time such a thing has happened.

These were some of the statements made by Dean W. J. Rutherford, of the University of Saskatchewan, during discussion following his address to the monthly meeting of the local branch of Canadian Society of Technical Agriculturists at the University, on the subject of "The Grading of Grain."

The Canadian system of grain grading, though not perfect, was, in the opinion of all the chief wheat buying countries the best system in the world, the dean implied in his address. Canada's chief competitors, Australia and the Argentine, were taking steps to imitate the western system. The American system was encumbered with too much detail, he explained.

Dean Rutherford believed that eventually the system of sampling from cars in the railway yards would give way to the practice of basing the grade on the unload sample at the head of the lakes or at Vancouver. More than 50 per cent. of the cars, he pointed out, were too full for sampling. Both railways and elevators encouraged overloading, he said, as they found it economical. In cars so loaded samples could not be taken with a probe.

On the other hand automatic sampling devices had been developed, taking a continuous series of samples during the unloading, which gave an absolutely reliable sample. This sample was kept for a sufficient length of time to allow for inspection.

He stressed the point that the statutory grades should be kept uniform from year to year. Occasionally concessions had been made to gain some temporary advantage, and these had resulted in a loss of confidence in the Canadian grading by overseas buyers and a loss in the long run to the Canadian producer.

New machinery, Dean Rutherford said, had led to some changes. Separation of weeds and foreign varieties of grain could now be made. Wild oats were now a commercial commodity and were sold in the East Indies, where they were fed to mules. The pool, he said, made more than 40 cents a bushel out of wild oats last year.

Viewed Dirigible From Air

Prince Of Wales and Prince George Used Airplanes

London, England.—The Prince of Wales and his brother, Prince George, it became known, went in aeroplanes appropriated for their use to meet the dirigible R-101 making its trial voyage.

Both took off shortly after noon from Sunningdale, Berkshire, and toured the home counties in search of the dirigible. They finally found it and after circling it and viewing it from the air, both returned to Northolt, Middlesex.

Men Accept Invitation

London, England.—So far 150 holders of the Victoria Cross have accepted the invitation to a dinner in the parliament buildings two nights before Armistice Day, at which the Prince of Wales will be present. Many pathetic cases of poverty among those heroes have been discovered.

Opposed To Conscription

Toronto.—Without dissent or debate the American Federation of Labor expressed its opposition to measures pending before Congress for universal conscription in time of war.

W. N. U. 1808

Madame Curie Visits America

Came To Attend Celebration Held In Detroit For Edison

New York. Timidly gazing about her in wonderment, a little old lady in black came slowly down the gang-plank from the liner "Ile de France" here.

The bustling, chattering crowd on the pier fell silent as her frail figure appeared on the deck above them.

"It's Madame Curie," the whisper went around.

Her steps carefully guided by Ambassador Charles Gates Dawes, who had arrived on the "Ile de France," and by Owen D. Young, who had come down to meet her, Mme. Marie Sklodowska Curie, co-discoverer of radium, set foot for the second time on American soil.

She came to honor her fellow-scientist, Thomas A. Edison, and attended a dinner given in celebration of the 50th anniversary of his invention of the incandescent light, in Detroit.

Mme. Curie will be the guest of President and Mrs. Hoover, at the White House, October 29 and 30, and will receive while there a cheque for \$50,000 raised in this country for the purchase of a gram of radium which she will present to the Radium Institute at Warsaw, Poland, her native city.

"Journey's End"

British Dramatic Presentation Will Furnish Treat For Western Audiences

Regina.—A rare thing in the theatre is a play that appeals to English and American audiences alike. An even rarer thing is a play that will run simultaneously and successfully in both London, England, and New York. "Journey's End," which comes to the Grand Theatre, Regina, for three nights, beginning Monday, October 28th, has not only done both of these things, but for nearly a year it has been the foremost and undisputed hit in both theatrical capitals.

"Journey's End," a war play by Robert Cedric Sherriff, was originally put on in London, where it took the town by storm. The English critics accorded it praises that can hardly be duplicated in the modern theatre.

"Journey's End," is a quiet, restrained study of men in war. The cast is composed entirely of men, and the scene is laid in front line dugout before St. Quentin. We see a small group of British officers waiting for the great German attack that they know is bound to come, and we see their various reactions in the face of the common danger. That is all. Yet in this simple, unadorned fragment of front-line life, Playwright Sherriff has managed to pack more human interest, excitement, humor, heroism and tragedy than one would get in an entire season of ordinary plays.

Itinerary Made Public

Premier King Will Speak In Eight Western Cities

Ottawa.—The itinerary of Premier Mackenzie King's western tour made public. The prime minister will speak at Winnipeg, Saskatoon, Prince Albert, Edmonton, Prince Rupert, Vancouver, Calgary and Regina.

Hon. J. L. Ralston, Minister of National Defence, is making a tour of inspection of the West at the same time and will therefore accompany Mr. King for much of the tour. Senator Andrew Haydon, of Ottawa, will also accompany the prime minister.

Bandits Torture Farmer

Hung By His Thumbs and Threatened To Be Burned Alive

Lethbridge.—A strange story comes from the border where, about 15 miles from Coult-Sweet Grass, Steve Churrie, farmer, was hung by his thumbs, threatened to be burned alive with distillate and robbed of \$200 by two unknown bandits.

The story has been authenticated by the Alberta Provincial Police, who believe that one of the bandits is the man who held up Fred Richardson at the C.P.R. station here and robbed him of \$32, as the holdup at Sweet Grass took place the morning after.

A revision of the French dictionary, started in 1878, is not expected to be finished before 2000.

WITH MACALPINE PARTY

Richard Pearce, editor of Northern Miner, the best known mining editor in Canada, who was accompanying the MacAlpine party on his second trip across the barren lands. On his previous trip he was with "Punch" Dickens, who by his meritorious feat won the McKee trophy.

Presented With Home

Samuel Larcombe, Famous Wheat Grower, Is Recipient Of Gifts From Admirers

Birtle, Man.—Samuel Larcombe, aged pioneer agriculturist of the western plains, whose discoveries of rust resistant grains have made him internationally known, tonight sleeps in a new house, located amid the rolling and fertile fields overlooking the picturesque Bird Tail Valley.

Today, surrounded by hundreds of friends, by the Lieutenant-Governor of Manitoba, Hon. James D. McGregor, and representatives of the provincial government, the house was presented to Mr. Larcombe, a tribute to his work which has greatly enriched Canadian agriculturists. Recently the Larcombe home was destroyed by fire.

Friends throughout Canada contributed funds for the construction of the modern home.

Daily Air Mail Service

St. Paul, Minn.—Daily service over an air route between Winnipeg and St. Paul—instead of every other day—is announced with the statement that the Schlee-Brock Aircraft interests have acquired the Canadian-American Air Lines. Service between the Twin Cities and Port Arthur is to be inaugurated as soon as a field at the head of the lakes is prepared.

More Buildings Needed

Saskatoon.—In order to keep pace with the growth of the University of Saskatchewan, more buildings are necessary, particularly one for arts and science, according to President Murray, who addressed a gathering of over 300 students at the Arts and Science dinner.

Powers Accept Invitation

Will Attend Naval Conference In London In January

London, England.—The British Government has received official replies accepting its invitations in every instance to a five-power naval conference here in January and also expressions of willingness to participate in proposed preliminary discussions of the problems of limitations.

The texts of both the Italian and French replies were published. Italy expressed the desire to collaborate in any step calculated to eliminate the dangers of excessive armaments and said its view on the subject was too well known to require restatement.

The text of the Japanese acceptance had also been received, but has not been made public as yet.

Famous Library Restored

Louvain Library Richer In Some Respects Than Before War

Brussels.—When the Louvain Library was destroyed by fire, in August, 1914, during the German occupation, it contained some 350,000 volumes, including 1,500 incunabula and several hundred manuscripts from the twelfth and thirteenth centuries, valued at more than a million dollars. Today, it has been completely restored, and in some respects, is richer than before.

By virtue of the Versailles Treaty, the Germans promised to restore the Library's contents, and since the armistice they have restored a total of 300,000 volumes, inclusive of 600 incunabula and 300 manuscripts, including one of the eleventh century.

Ottawa Welcomes Canoeists

Young Montrealers Making Unique Trip From Vancouver To Halifax

Ottawa, Ont.—Richard Lesage and Paul Paquin, of Montreal, trans-continental canoeists, were welcomed to the capital by Mayor Arthur Ellis. Later a civic automobile was placed at the disposal of the intrepid paddlers and they visited Mayor Lambert of Hull, Quebec.

The unique trip by which the young Montrealers have travelled from Vancouver, and plan to reach Halifax, N.S., some time next month, was temporarily halted here while Lesage travelled by train to Montreal because of the serious illness of his sister.

West Buys Eastern Potatoes

St. John, N.B.—Shipments of potatoes from Carleton and Victoria counties, in New Brunswick, are being made to Western Canada, particularly the prairie provinces. The recent ruling of the railways, giving the privilege of bagging the tubers while in transit, is helping the situation and shippers claim the whole New Brunswick crop will find good markets.

Women Work Wires

Women make excellent telegraph operators, according to Mr. J. McMillan, general manager of the extensive Canadian Pacific Railway telegraphs. The advent of automatic sending and receiving instruments and other appliances eliminated much of the heavier work formerly done by men, and in addition to vastly speeding the service, gave an opportunity for efficient typists to become operators as the automatic machines have a keyboard like that of a typewriter, and a knowledge of telegraph code is not required. Roughly forty per cent. of the operators in the employ of the C.P.R. telegraphs are women, about twenty-six per cent. working on Morse shifts, and forty-two on the automatic machines. The photograph shows two girls operating one of the battery of sending machines. Inset is Mr. McMillan, who controls 160,287 miles of wires.

ASK FOR FREIGHT RATE EQUALITY FOR THE WEST

Ottawa.—Complete equalization with the rates to the head of the lakes was demanded by representatives of the British Columbia and Alberta governments in an appeal to the Dominion cabinet against the general order of the Board of Railway Commissioners on the subject. Leon J. Lander, M.P., counsel for British Columbia, and S. B. Woods, K.C., counsel for Alberta, submitted there should be no higher percentage in the rate basis over the mountains than in the rate basis in any other part of Canada.

Counsel for Manitoba and Ontario, the Winnipeg Board of Trade and the City of Winnipeg, as well as counsel for the two railway companies, have given notice of their intention to oppose the appeals.

The millers of Canada are represented by counsel, but so far their attitude has not been disclosed. They probably will support the appeals. A majority of counsel and the cabinet were agreed that the provincial governments appeal signed by the governments of British Columbia, Alberta and Saskatchewan, would be postponed after a protest from other parties interested that sufficient notice had not been given.

After the United Farmers' appeal had been presented it was decided that if any lawyers wanted to go on with the portion of the second appeal which coincides with the first, there would be no objection. A motion put by the Hon. A. B. Hudson, for the Manitoba Government, that the question of the mountain differential should not be discussed at this time, was disallowed.

The result has been a prolonged discussion on the merits of the British Columbia case and the validity of the separate and conflicting decisions rendered by the board of Railway Commissioners on the mountain differential.

Arranges Atlantic Flight

Major Kingsford-Smith Plans London-New York Trip Next Summer

Vancouver.—Major Charles Kingsford-Smith has pretty well completed arrangements for a non-stop flight across the Atlantic from London to New York next May or June, he said, following his arrival in the city in which he spent several years of his school days.

"I have one more ocean to cross," he said as he referred to the 70,000 miles his plane, the Southern Cross, has flown since he made his trans-Pacific flight early last year. "We left the Southern Cross in the Fokker factory, in Holland, for an overhaul," he said. "She will be practically rebuilt, but the old engines, which have crossed the Pacific and Indian oceans and have been around Australia on many trips, will be in the Southern Cross when we start west across the Atlantic."

Urge B.C.-Alberta Highway

B.C. Good Roads League Endorsed Resolution To Government

Harrison Hot Springs, B.C.—A resolution asking the provincial government to complete an inter-provincial highway from British Columbia to Alberta as quickly as possible was unanimously endorsed by the Good Roads League of British Columbia here. No suggestion was made as to whether the Big Bend route or the Kamloops-Jasper link should be used.

The convention endorsed a recommendation favoring renewal of federal aid for highway construction. J. J. Johnston, of New Westminster was elected president for the ninth time.

Ask More Pay For Civil Service

Ottawa.—Creation of a minimum annual salary increase of \$120 for Federal Government Departmental workers, was requested by President V. O. Phelan, of the Civil Service Federation of Canada, when he appeared recently before the civil service commission. A complete and careful consideration of the request was promised by the commission.

Editor and Publisher**IF YOU WOULD BE A SUCCESS**

Put everything you have into the job you are doing, whether it is sweeping floors, running a punch press keeping a set of books or managing a department. Put your best into your job. Do it better, if you can, than anybody else ever did it. Master the job. Run the job and don't let the job run you. Constantly make your best better. Use your head. Find better ways, easier ways, quicker ways of doing your work. Make yourself more skillful.

Be loyal. Be dependable, for an ounce of loyalty is worth a pound of cleverness. If you work for a man, work for him, not part of the time, but all the time. Speak well of him. If you want to damn him get out and damn him to your heart's content, but as long as you work for him, stick up for him. Be courteous, willing and helpful, not only to the boss, but to the new man as well. Treat him as you wanted to be treated when you were a new man.

If you are ambitious and want a better job, prepare yourself for it. Work and study. Make yourself to do other jobs than your own. When the better job comes, be ready for it. If you are not ready for it, it will go to the man who is, the man who has prepared. All around us we see men on jobs they think not good enough for them and they do just enough to "get by." They say, "wait until I get a real job then watch my smoke." If you had a job that needed a real man to do it would you give it to a man who had a wishbone where a backbone ought to be? Of course not! You would give it to a man who was already making good on whatever he happened to be doing.

Once in a while, it is said, that it is "pull" more than good work, that secures promotion, but in 99 cases out of 100 when an employee makes that assertion, he is trying to excuse his own inability to hold down the better job. In these times the employer who fills important jobs by "pull" instead of ability isn't going to remain in business very long. There is no substitute for the ability to do a piece of work well.

The kind of work to be done changes with the years, but work itself remains and the work of Canada required by our present and our constantly increasing standard of living cannot be done except by plain old-fashioned hard work.

**ALBERTA HIGHWAYS ARE MARK-
ED BY MOTOR ASSOCIATION**

Marking of two thousand miles of automobile roads north of Red Deer has been undertaken by the northern division of the Alberta Motor Association. The southern branch has been working for some time on proper marking of highways in that part of the province, so that next season, with its increased car traffic, should see a large percentage of the main and secondary highways of this province fully marked, something that will be of lasting credit to the Alberta Motor Association.

In the north, much good work has

been done by J.A. McNeill, manager of the northern division of the Alberta Motor Association. There has been complete marking of the highway from Edmonton to Viking, Wainwright, Chauvin, south to the Green trail, north of Hayter. Every turn is plainly marked R or L as well as every cross road being marked with a straight-ahead sign. The Green highway from Wetaskiwin to Macklin has been completed as well as the black trail from Edmonton to Athabasca.

Fred. R. Brason has been directing the work of road marking in southern Alberta and splendid results have been obtained there thus far. It is realized that a large percentage of Alberta's tourist traffic enters from the Montana gateways, as well as over the Banff Windermere trail, so that adequate marking of roads in that part of the province is a primary requisite.

A BAD COLD—PERHAPS

Joan and Mary always walked to and from school together. Now Joan was on her way to call for her little chum. They had almost quarrelled the afternoon before. Joan couldn't understand it, usually Mary was so even-tempered. This morning Mary was not dancing along to the gate to meet her and when she knocked at the door, Mary's mother told her that Mary had a bad cold, was in bed and would not be going to school for a few days. "Can I see her, please, Mrs. Jones?" "No, Joan, I am keeping Mary all by herself until we see what is going to develop. It may be just a bad cold, or it may be measles, chicken pox, scarlet fever or anything. You see so many serious illnesses begin with just a bad cold and it is much easier to isolate Mary and watch her, than to nurse a whole household, down with a contagious disease."

Mrs. Jones was a modern mother who read health literature, subscribed to magazines that published articles on the bringing up of children, was eager and was decided in her opinion that "Prevention was better than cure!" So do you watch that bad cold in child or adult. It pays.

REMEMBER

That newspapers give the advertisers value for their money.

That newspaper advertising creates new business.

That advertising will keep and hold business from going on the rocks.

That advertising will revive a dull business.

That newspapers are the greatest dealers of service in existence; use this service.

That your local newspaper is always at your service; use it.

That no business can live by itself and prosper.

That no business can confine its activities to the four walls that surround it and live.

That advertising opens up a broader and more sympathetic feeling between the buyer and seller. Advertise.

That advertising in The Chronicle will inform the inhabitants of Carbon and surrounding country where and what to buy.

That The Chronicle stands for every thing that is for the betterment and progress of Carbon and the communities surrounding it.

HAVE YOU PAID YOUR SUBSCRIPTION YET? NOW IS THE TIME

**IN THE RACE FOR BUSINESS**

The gentleman on the tortoise represents the man who does not advertise—the one who tries to do business as it was done in the days of the tallow candle or the oil lamp.

DETOURS ON THE ROAD TO MERCHANDISE
VALUE. READ THE ADVERTISING "ROAD MAPS."

Snicklefritz -----

A shoulder strap sure is an important little article, isn't it?
Yes, it's the only thing that keeps an attraction from becoming a sensation.

An angry telephone patron in Minneapolis, charged extra for a St. Paul call, roared: "Outrageous! Why, in my home city of Philadelphia one can talk to hell-and-back for ten cents!"

"Oh, that's inside the city limits!" chirped Central.

A young woman who wanted a pair of garters addressed the clerk thusly: "It is my desire to obtain a pair of circular elastic appendages capable of being contracted and expanded by means of oscillating appliances which are utilized for keeping in position the habiliments of the lower extremities which innate delicacy forbids me to mention."

Wife: "How do you account for a woman's glove being in the pocket of your clothes you wore yesterday?"
Husband: "Carelessness, dearie, sheer carelessness."

Stuck On It

Agent for very small two-seater—Well sir, are you going to buy it?
Stout passenger—I suppose so, I'm afraid I can't get out of it now.

Manager: "Have you any excuse to offer for such laziness?"
Clerk: "None that will work."

The American coin called the nickel contains only one fourth nickel, the remainder being copper. Some more

Yankee tricks.

"Well, Willie, and so you go to school now, do you?"
"Yes."
"And do you love your teacher?"
Willie gave a laugh. "No," he said, "She's not my style."

JACK MINER'S PROGRAM

Jack Miner, the Canadian naturalist, has formulated a program which he hopes will be carried out some day:

1. Jack Miner stands for what is best for the most people and not for the favored.

2. Jack Miner stands for conservation of the Dominion's forest resources as one of the most important foundations of the country's prosperity and the natural habitat of wild life and the first essential to the continuity of our rivers and water powers.

3. Jack Miner stands for reforestation of all waste lands and windbreaks and forest borders of at least ten per cent of farming country, knowing that the other 90 per cent will become more productive and have the comforts of the windbreaks and timber to their good.

4. Jack Miner stands for preservation of all remaining marsh lands and replanting and maintenance of natural conditions and environments.

5. Jack Miner stands for preservation and culture of wild flowering and other plant life that makes our houses into homes more attractive and lovable.

6. Jack Miner stands for at least one Government Sanctuary of at least 25 acres in each district, and no shooting to be allowed within one mile of it. Lands round the protection zone to be open for public shooting in the open season. This policy he knows will distribute the wild life more evenly throughout the nation.

7. Jack Miner stands for the Migratory Bird Treaty between Canada and the United States, and a small uniform Federally controlled bag limit treating all provinces alike.

8. Jack Miner stands opposed to the sale or commercialization of game in any way, shape or form.

9. Jack Miner stands for erection of a small observatory on every sanctuary so that the bird lover with his kodak can have first choice without disturbing the birds. Jack Miner knows that the bird lover takes nothing from the shooters and by encouraging him his assistance aids the building up of the overflow from the sanctuaries for the shooter's limited toll.

10. Jack Miner stands for appointment of game law enforcement officers by qualification and not by favor.

11. Jack Miner stands for practical control of predatory birds and animals.

12. Jack Miner stands opposed to pollution of streams that is a detriment to food and game fishes and their foods and for establishment of hatcheries for these species to restock our lakes and streams.

13. Jack Miner stands for more wild nature studies in our schools that our children become more interested in closer acquaintance with all forms of wild life, their habits and haunts. This will increase their desire for home building in the country where they get their living at first choice and price, as 10 cents will buy them more country life than one dollar will buy city life, and leave them with a stronger constitution and willingness to stand up and face the world.

14. Jack Miner stands for amalgamation of all conservation and wild life protective organizations, with a

view to uniformity of policy and activities co-operating to one common end.

15. Jack Miner stands firm for more and better education for all, with special attention to God's promise in Genesis 1-26, when He says "Let man

have dominion over all," which he has tested out and found to be true. This will eventually bring about more sane and effective legislation in the interests of both national and international affairs, and weld us closer to a mutual beneficial end.

CHEVROLET SIXES Sold this year as any other six at any price in any year!

NO other six-cylinder car has ever earned, in any year, one-third the public acceptance . . . one-third the volume of sales . . . which have been bestowed upon Chevrolet Six during the nine months since its introduction.

This tremendous public acceptance is due to three outstanding facts. To the fact that Chevrolet offered, for the first time in history, a six at the price of a four . . . To the superb standard of quality in Chevrolet's design, material and workmanship. And to the new, greater performance abilities that Chevrolet Six provided.

Chevrolet Six was four years old in experiment, in research, in testing, in proving . . . before the first Chevrolet Six was placed in the hands of its owner. And that owner . . . like the million and a quarter owners who followed his example . . . SOLD HIMSELF on the Chevrolet he bought . . . on the road, behind the wheel. Why not let us place a Chevrolet Six at your disposal . . . and form your own opinion of its value.

Thanksgiving Day

Advance Opinion That Day Of Thanksgiving Should Be Fixed For October

That is a good suggestion that comes from the Canadian Chamber of Commerce, that Thanksgiving Day should be fixed for some time in October. Before Armistice Day came along with such a whirlwind of thanksgiving that people thought it should be continued for all time. Thanksgiving Day was held in October. Then, with the harvest safely housed, people gave thanks in weather that made everybody thankful that he was alive.

Now thankfulness for the end of the war has mellowed into memories of the heroic dead—memories that do not fit in with the joyousness that characterizes the regulation Canadian Thanksgiving of feasting and sport. Armistice is a day apart. It lends itself to solemnity, mingled with sorrow. Let it have early November all to itself. Put Thanksgiving Day back where it belongs. —Toronto Telegram.

A STOMACH RESTORER

Good Advice From One Who Had Suffered Much

Discomfort after eating, gas pains in the intestinal tract, pains around the heart, sour risings in the throat called heartburn, are common symptoms of dyspepsia. It is a condition often neglected until it has done permanent harm, yet the treatment is simple. The great contributing cause to this trouble is thin blood. Good blood and plenty of it is required by the stomach to function properly. If the blood is thin the stomach becomes sluggish, food lies undigested, gas forms causing pains, often around the heart. Instead of getting nourishment from the blood the system gets poison. The proper treatment is to enrich the blood, and there is no other medicine can do this as promptly or as effectively as Dr. Williams' Pink Pills. The sole mission of these pills is to make new, rich, red blood, which reaches every organ and nerve in the body, and thus not only banishes indigestion and dyspepsia, but also all other troubles having their origin in weak, watery blood.

The splendid results following the use of Dr. Williams' Pink Pills is shown by the case of Mrs. Lucy A. Cushing, a former resident of Kempt, N.S., but now living with her son at West Bethel, Me. Mrs. Cushing says: "I have no hesitation in strongly recommending Dr. Williams' Pink Pills. For years I was a great sufferer from indigestion. Always after eating I suffered from pains in my stomach and other distressing symptoms that accompany this ailment. I tried different doctors while residing at my old home and also at West Bethel, but without getting relief. I was advised by a friend to try Dr. Williams' Pink Pills. I did so and I must say that I am feeling very grateful ever since to the good friend who gave me the advice. I soon found the pills helping me and by the time I had taken nine or ten boxes I was completely restored to good health. Though I am now in my 76th year I am feeling as well and smart as I did at 35, and am enjoying life once more."

You can get these pills through any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A Floating Theatre

An old four-masted schooner will be fitted up in the near future to form a floating theatre. The ship will be called Pro Arte, and will cruise around the world giving plays representative of German spirit. It will contain a modern stage and seating capacity for 500 persons.

Persian Balm preserves and enhances women's natural heritage of beauty. For sheer feminine loveliness it is unrivalled. Tones and rejuvenates the skin, and makes it exquisite in texture. Delightful to use. Smooth and velvety, it imparts a youthful charm to every complexion. Indispensable to all dainty women. Especially recommended to make hands soft and white. Delicately fragrant. Preserves and enhances the loveliest complexions.

All products exported from Spain are to bear a national label. A "Made in Canada" label on all Canadian exports might impress on other nations just how much the Dominion does export.

SUNDAY SCHOOL LESSON

OCTOBER 27

THE CHRISTIAN VIEW OF RECREATION

Golden Text: "I came that they may have life, and may have it abundantly."—John 10:10.

Lesson: Jeremiah 31:12, 13; Zechariah 8:5; Matthew 11:16-19; Mark 2:18-28; 6:30-32; John 2:1-11.

Devotional Reading: Philipians 4:4-9.

Explanations and Comments

Jesus' Religious Teaching a Call To Joyousness, verses 18-20.—The strict Jews, like the Pharisees in the parable of the Pharisee and Publican, fasted twice a week, on Mondays and Thursdays. The disciples of John the Baptist and the Pharisees fasted, but the disciples of Jesus did not. The former went to Jesus and complained because his disciples did not observe the fast. "Can the sons of the bridechamber fast, while the bridegroom is with them?" Jesus asked. The friends of the bridegroom conducted the bride and her companions to the house of the bridegroom with singing and playing of musical instruments, and they remained there for a week of feasting and mirth. The Talmud absolved them even from prayer and worship during such festivities. "As long as they have the bridegroom with them, they cannot fast," continued Jesus, "but the days will come, when the bridegroom shall be taken away from them, and then will they fast in that day."

"When Christ has withdrawn from the soul, when times of darkness hide or experiences of sin banish Him from the soul, or the strong need of a clearer sense of His presence overcomes the desire for food, or a failure in doing work indicates a lack of His presence and power (Matthew 17:21), then there will be fasting. Fasting is truly Christian only when it is the natural expression of Christian experience." —Lyman Abbott.

I Am Come That They May Have Life, and May Have It Abundantly, verses 23-26.—The Sabbath controversy was one of great importance in the eyes of the Pharisees. During the Jewish exile in Babylon, when sacrifices could no longer be offered in the temple, the strict keeping of the Jewish worship, and legislation multiplied in regard to the observance required. The Sabbath was the seventh day of the week. The reason why we keep the first day is thus given by Justin Martyr (second century): "Sunday is the day on which we all hold our common assembly, because it is the first day on which God wrought a change in the darkness and made the world, and Jesus Christ on the same day rose from the dead." Said Alcuin, writing at the close of the eighth century: "The observance of the former Sabbath has been transferred very fittingly to the Lord's Day, by the custom and consent of the people."

An Oil Of Merit.—Dr. Thomas' Electric Oil is not a jumble of medicinal substances thrown together and pushed by advertising, but the result of the careful investigation of the healing qualities of certain oils as applied to the human body. It is a rare combination and it won and kept public favor from the first. A trial of it will carry conviction to any who doubt its power to repair and heal.

Black Strip Frees Boat

Employment of the principle that black absorbs the sun's rays and holds the heat enabled the captain of an ice-bound steamer in a lake in Alaska to extricate his ship. He had a strip of refuse oil and lampblack, 40 feet wide, swabbed across the frozen lake lake. In a short time the strip softened sufficiently to allow the steamer to break through.

Minard's Liniment for Warts.

Had Good Reason

Sir James M. Barrie, the noted author of Glasgow. Speaking of his younger days, he said there was once a horse show in the Scottish city. "I patronized it and lost a penny. I went back at night, climbed the paling and searched for it. I found three pence. No wonder I have a friendly feeling for Glasgow."

No need to suffer with corns, or to run the risk of paring them. Remove them surely and painlessly with Holloway's Corn Remover.

Small aeroplanes recently exhibited at the English Aero Show, and costing \$1,700 each, are capable of 85 miles an hour over long distances. They carry only one man.

Mechanical cotton pickers are put on the market, it is reported.

He Asked Them Does It Pay To Clip Cows?

A CERTAIN farmer wanted the facts about clipping cows so he wrote us for names of those owning clipping machines. He wrote them. Now he himself is so pleased with the Stewart clipping machine he sent us the letters which made him decide the clipping machine is a good investment. Here are some of them:

Hawkesbury. "If short of help clipping reduces time necessary to keep cows clean—and must say since using the machine have not had any trouble with lice."

Jordan. "Before we clipped our cows we had a high bacteria count, whereas after we clipped them we had a very low bacteria count thus improving the quality of our milk."

Whitby. "And it certainly is a wonderful help in reducing lice."

Gadshill. "We find it much easier to keep them clean and free from vermin when clipped. To have clean milk you must have clean cows. We raise quite a number of heifers every year and in that way we always have a number of cows to sell. The clipping so improves the appearance of the cows that I think it easily adds 5 or 10 dollars to the value of an animal."

HOW TO CLIP COWS

Manure, the principal source of bacteria, cannot collect and at milking time rub off into the pail if hair on udders, underline, flanks and tail is kept clipped short all winter. Lice seem to congregate along the spine, which explains why some farmers clip a six-inch width from tail to ears. Farmers who have warm stables and drinking water inside, usually clip their cows all over in the fall.

Buy a clipping machine and make more money from your cows—with less work.

Stewart No. 1 Clipping Machine is easy to use and anyone can clip with it. Strong, sturdy, easy-running and will last for years. At your dealer, \$15.00. Satisfaction or money refunded.

Only choice leaves grown at high altitudes go into the blending of Blue Ribbon Tea. That is why its flavour is so uniformly excellent. Insist upon getting it from your grocer—refuse substitutes of inferior quality.

The Singing Fool

By HUBERT DAIL

Copyright, 1928, Warner Bros. Pictures, Inc.

SYNOPSIS

Al Stone, singing waiter at Blackie Joe's New York night club, wins fame as a composer of popular songs. He marries Molly Winton, a ballad singer and makes her famous, too. Molly and Al have a baby, Junior, whom Al adores. When Junior is about two years old Molly becomes romantically interested in John Perry, Al's best friend. On New Year's Eve Al rushes home from the Club Bombo, where he is part owner and master of ceremonies, to find that Molly has eloped with Perry, taking Junior. Al is staggered by the cruel blow. Next morning he visits Marcus, producer of the revue in which Molly appeared, in search of information.

CHAPTER XVIII

Marcus handed Al a tiny marked paragraph from the theatrical column of a morning paper. It read:

"Miss Molly Winton, headliner in The Merry-Go-Rounders, the most popular Marcus review of the season, has left the cast temporarily for a much-needed rest. Her place will be taken by her understudy, Suzanne Eastman."

"Temporarily?" exclaimed Al.

"Well, we just phrased it that way in case she should happen to come back. What's the meaning of all this, Al?"

Al stared hard at Marcus. Should he tell Marcus the truth, or should he cover up? It was apparent that Marcus knew nothing of Molly's whereabouts—and that was what Al had come to find out.

"Nothing," answered the young song-writer. "It's just as she says—she's tired out."

Marcus leaned back in his chair, studying Al's face carefully.

"Boy, you're holding back on this. I can tell from your expression that

she's done something to you too. Has she—has she ditched you?"

"I didn't say that."

"I know you didn't, but—your eyes say it. You look as if you hadn't slept for six months."

Al felt himself sagging, but he suddenly stiffened and exclaimed vehemently:

"Listen, Marcus, don't give me away on this. It would make scandal and I don't want publicity. I want to work it out my own way. But—Molly has left me."

"Phew! I'll be mum—but when, why?"

"Last night—with John Perry. Left a note. She took Junior."

Marcus's face softened in sympathy for this stricken man. Here stood his best song-writer, the boy he had discovered and made famous, the lines of his face sharply etched by pain. Al seemed to have aged over-night.

The producer jumped up, ran around the table, put his arm about Al's shoulders.

"Don't let it throw you! It's a tough break, but you were bound to get it some day from that girl."

"Yes, I know it—now!" Al answered bitterly. "But did you see it coming?"

The producer nodded. "Do you remember that night down at Blackie Joe's three years ago—you insisted that if I bought your song I'd have to give your sweetie, Molly, a good revue job too? I took a long look at Molly and—I decided she was a cheater. . . . Then, when John Perry came along I saw a few things. But I thought it might blow over—there was no use warning you. You loved her too much."

"I loved her too much, that's true," admitted Al. "I trusted her completely, and I trusted John Perry, too. I'd like to get that snake alone just once!"

"Again the feeling of rage returned to Al. Marcus's grip tightened on his shoulder.

"Steady, Al. You don't win this

battle that way. Let her go—forget her."

"It's easier to say than to do, Marcus. Besides, she's taken my boy, Junior. That's what hurts most."

"I know, I know," Marcus gently led Al toward a chair. "Here, sit down, pull yourself together. And have a shot of Scotch."

. . . . The days passed like years, until a week was gone. But still there was no trace of Molly and Junior, and no word from them. Somehow, Al managed to live through those terrible days of futile waiting, but he was unable to continue his song-writing, unable to fill his post as master of ceremonies at the Club Bombo.

At the end of the week he came to a sudden decision. He approached Billy Cline, his business partner at the Bombo, for a conference. They sat in the office one afternoon above the ballroom of the Bombo.

"Billy," Al began doggedly, "I can't go on with this. You know why. I can't appear before that crowd downstairs and go through with my wise-cracking routine. So I might as well get out, bag and baggage."

"Sell out, you mean?" questioned his partner.

"Yes, just that. I want you to buy my interest and I'll disappear. I'm through with Broadway—the whole life."

"Don't say that, Al," countered Billy. "You've got a thousand more songs in you—every one a hit."

"No," Al shook his head. "It's the end of all that sort of thing."

His partner hesitated. "Well, Al, of course I'll buy your share in the club, but the place won't be the same without you."

"I s'pose that's true, Bill, but my heart isn't in it. You've got to feel gay to be gay—that is, consistently. I thought I could work through this thing, but I can't, so—it's curtains."

Billy Cline studied Al's face just as Marcus had done, trying to think of some way his friend's problem might be solved. But he ended by making a gesture of acquiescence to Al's proposal. Cline knew in his heart that Al was right about himself—a man can't write songs or carry on in the night club racket unless he can amuse the crowd. And Al's face showed he just couldn't. Cline rose.

"All right, Al. I'll get the books and we'll have an accounting."

As Cline walked away Al picked up a newspaper that an office boy had just left on a nearby chair. He turned it over and—staring at him from the front page was a large photograph of Molly. The words he read beneath that smiling photo horrified him.

Al's hard eyes in the newspaper reproduction seemed fixed on Al in cynical and cruel triumph. In a two-column box he read:

"Interviewed at her suite at the Biltmore today, prior to sailing on the 'Ile de France,' Molly Winton, celebrated songstress and late star of 'The Merry-Go-Rounders,' confirmed the rumor that she is contemplating a Paris divorce from her husband, Al Stone, song-writer and Broadway's favorite master of ceremonies."

That one sentence was enough; Al dropped the paper and jumped up just as Billy Cline returned with the Club Bombo account books.

"What's the matter, Al?" cried his partner, for Al's face was ashen.

"Read this," Al snatched up the paper. "Molly's sailing today for Europe, taking Junior. It means I may never see my boy again! For all I know, they're on the high seas now!"

Cline scanned the article rapidly, but Al interrupted him.

"Have they sailed yet?" he cried in tones of anguish. "Have they taken Junior away without a word?" Cline turned quickly to the shipping news, while Al stood glancing over his shoulder. Down the column their eyes travelled to the part marked "Sailings-Today." And then—"Ile de France—6 P.M." Cline looked at his watch.

"It's three now, Al. You might be able to stop them."

"You mean legally—the police."

"There's just a chance."

"I won't do that. I have my rea-

Needless Pain!

Some folks take pain for granted.

They let a cold "run its course."

They wait for their headaches to "wear off."

If suffering from neuralgia or from neuritis, they rely on feeling better in the morning.

Meantime, they suffer unnecessary pain. Unnecessary, because there is an antidote. Aspirin tablets always offer immediate relief from various aches and pains we once had to endure. If pain persists, consult your doctor as to its cause.

Save yourself a lot of pain and discomfort through the many proven uses of Aspirin. Aspirin is safe. Always the same. All drug-stores with complete directions.

sons. But I must see Junior before he leaves—you don't know what he means to me, Billy!"

Al grabbed up the 'phone from Cline's desk and put in a call for the Biltmore.

"I'd like to speak to Mrs. Al Stone."

Molly was superintending the packing of her bags when the 'phone rang. Junior was playing in the adjoining room of the suite, and John Perry, who had just arrived, was reclining in an easy chair near Molly, smoking a cigarette, his hat and stick beside him. The maid put down an armful of Molly's clothes and moved toward the 'phone.

(To Be Continued.)

Little Helps For This Week

"Give me thine heart."—Proverbs xxiii, 26.

What can I give Him,
Poor as I am?
If I were a shepherd,
I would bring a lamb;
If I were a wise man,
I would do my part;
Yet what can I give Him?
Give me heart.

—Christina G. Rossetti.

O Lord! take my heart, for I cannot give it; and when Thou hast it, oh, keep it! for I cannot keep it for Thee; and save me in spite of myself, for Jesus Christ's sake.

—Fenelon.

Restless Children

Children will fret, often for no apparent reason. But there's always one sure way to comfort a restless, fretful child. Castoria! Harmless as the recipe on the wrapper; mild and bland as its tastes. But its gentle action soothes a youngster more surely than some powerful medicine that is meant for the stronger systems of adults.

That's the beauty of this special children's remedy! It may be given the tiniest infant—as often as there is any need. In cases of colic, diarrhea, or similar disturbance, it is invaluable. But it has everyday uses all mothers should

understand. A coated tongue calls for a few drops to ward off constipation; so does any suggestion of bad breath. Whenever children don't eat well, don't rest well, or have any little upset—this pure vegetable preparation is usually all that's needed to set everything to rights. Genuine Castoria has Chas. H. Fletcher's signature on the wrapper. Doctors prescribe it.

EVEREADY

You can use these famous batteries until the heavy zinc plates are riddled full of holes—and they'll still keep on running your radio! Eveready Layerbilt, the only flat-cell "B" battery, is justly popular for its long life and low power cost. Buy Eveready Layerbilts for economy and better service. Made in three sizes.

WORLD'S FAMOUS THREE FUEL HART PARR

In special tests conducted by nationally known engineers who used cheap distillate fuel the great Hart Parr 18-36 registered a draw bar pull of 5,535 pounds at 2 miles per hour and 4,075 pounds at 3 miles per hour. On the belt it easily pulled the amazing load of 43 horse power. The Hart Parr is a three fuel tractor and will burn gasoline, kerosene or distillate equally well. It is the one tractor that develops its power from the cheapest low grade fuel. Hart Parris are made for small, medium or large farms and have three forward speeds to speed up hauling and field work. Drive yourself and experience the thrill of controlling tremendous power.

DON'T MISS IT

EUROPEAN AND AMERICAN
WHEAT MEN TO ORGANIZE

WINNIPEG, Oct. 23.—Forecasts of
advanced organization of grain mar-
keting in Europe and the United States
were accepted here yesterday with
mixed feelings. Wheat Pool officials
visioned broad possibilities in the pro-
posed United States wheat pool, which
is said the Federal Farm Board will
officially announce in Chicago in ten
days.

European Wheat Trust

Talk of the European Wheat trust
it is pointed out, follows on the heels
of a call to action by minister of the
interior, Andre Tardieu, in France. The
French government minister has
declared that exclusive of Russia, Eu-
rope could save \$1,000,000,000. It now
pays for wheat reorganization of home
production of the grain crop. Speak-
ing at Glomagny, near Belfort, he
stated that to reach self sufficiency in
wheat it was only necessary to make
wheat growing on the continent more
remunerative.

The U. S. Proposition

"The welding into one organization
of the wheat pools, farmer's co-opera-
tive elevators and co-operative sales
agencies in the United States to be
adequately financed by the United States
government under the supervision of
the Federal Farm Board, should, if
it can be successfully carried out, have
a powerful influence in stabilizing prices
not only in the United States, but
on world markets," stated George Mc-
Iver, general sales manager of the Cana-
dian Wheat Pool.

"The big problem for such an organi-
zation is to secure control of the
grain through the co-operative organi-
zation set up for this purpose. Hand-
ling facilities are exceedingly import-
ant, but even more important is the
securing of a sufficient number of
farmers who will turn over their
wheat to be marketed by their own
co-operative grain marketing organi-
zation. It is satisfactory to note that
the Farm Board is paying us the com-
mitment of planning the new organiza-
tion along the lines of our Canadian
wheat pool."

ROD AND GUN FOR NOVEMBER

Featured in the November issue of
Rod and Gun and Silver Fox News,
Canada's national outdoor life maga-
zine, which is just to hand, are some
splendid and seasonable yarns of hunt-
ing in various parts of the Dominion.
The noted Western hunter, A. Bryan
Williams, recently appointed Chief
Game Warden of British Columbia, re-
turns to the pages of the magazine
commencing another of his popular
series of hunting experiences.

His article, however, is merely one
of many dealing with all angles of out-
door life and fishing and hunting in-
terests, while the silver fox depart-
ment is an extensive section filled with
timely articles regarding the industry.

She—If you men would just stop look-
ing at us girls in shortskirts, we'd
soon stop wearing them.

He—Heaven forbid that you should
go that far.

TENDERS FOR SCHOOL HOUSE

Sealed Tenders will be received by
the Board of Trustees of Simcoe
School District No. 1551 at the office
of the Secretary-Treasurer up to noon
on the 29th day of October, for the
erection of a one roomed frame school
building after Plan Number C10 amen-
ded. Plans and specifications may be
obtained from the Secretary-Treas-
urer on payment of a deposit of \$5.00.
Plans must be returned within 24
hours, and deposit will then be refund-
ed. A marked cheque for five per
cent of the amount of tender should
be enclosed with each tender as a
guarantee that same is bona fide. The
lowest or any tender will not necessar-
ily be accepted.

Who Does Your
Printing?

All business houses need more or less printed matter, all of which
is within the possibilities of the local printer. Yet how prone
many are to pass up the home printer and let the orders go to
city offices which have no interest whatever in rural communities
except to get printing orders and the cash to pay for them. Busi-
ness men, remember that the home paper is constantly promot-
ing the interests of the home community and you owe it to your-
self and your local paper to back up these efforts by at least hav-
ing your printed matter done locally.
